The Water Is Calling
2024 HOT TUB GUIDE

COVER IMAGE COURTESY OF CK SPAS LOCATION SAINT EUSTACHE QUEBEC

WELCOME TO HYDROPOOL

THE PACE OF LIFE HAS MADE IT INCREDIBLY DIFFICULT TO STAY CONNECTED.

That's why we engineer our hot tubs and swim spas to unlock the power of water, so you can make meaningful connections with family, your friends, and yourself.

WHY BUY A HYDROPOOL HOT TUB?

START YOUR DAY OFF RIGHT

Imagine starting each morning by taking a quick soak in your very own Hydropool Hot Tub. Your blood circulation will improve, your muscles will relax and you'll instantly feel better.
Your state of mind will be enhanced and you will be better prepared for your day at work, to drop off the kids at school or even head straight to the gym.

RELIEVE STRESS AND RELAX

When you're relaxing, life is more enjoyable. It is easier to converse, share intimacies, smile and laugh. You'll look forward to your time in your hot tub. Hydropool Hot Tubs are great for entertaining. Your guests will always leave with fond memories of the time spent with you in your hot tub.

SOOTHE THOSE TIRED AND ACHING MUSCLES

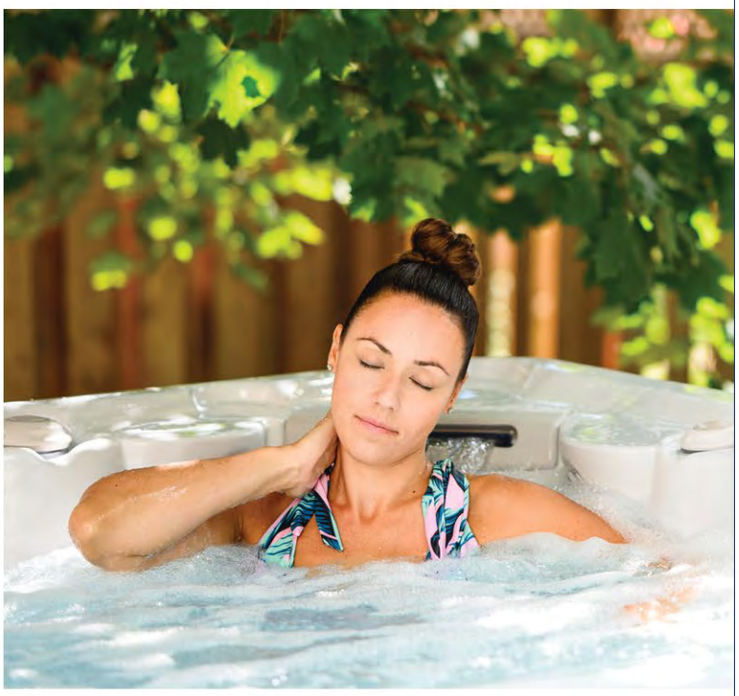

The heat of your Hydropool Hot Tub results in collagen tissue becoming more flexible. This new flexibility benefits many people with arthritic symptoms. Doctors have advised those with arthritis that soaking in warm water several times a day relaxes muscles and joints, and helps induce restful sleep. The resulting stress and muscle tension relief has also led many migraine sufferers to claim that hot tub use reduces the frequency and severity of their headaches.

SLEEP BETTER

The heat of the hot tubs improves blood circulation, provides tension relief and quicker lactic acid removal, creating a comforting state of relaxation and tranquility, which delivers you better sleep at night.

"We call our hot tub `Hydropool Heaven.' After a long day at the office, it's great coming home to our little piece of heaven."

Brian & Wendy Chin Quan,
Proud Hydropool Hot Tub Owner's

FOR THE CREATURES OF COMFORT

Once you've submersed yourself in the healing water of a Hydropool Hot Tub, you'll quickly realize that everything has been designed with your comfort in mind. The superior ergonomic design was created to hug your body and provide you with full comfort and support. From our unique, multi-level seating design, right down to the extra-large footwells, you'll see how easy it is to stretch out, relax and enjoy your hot tub. Deep bucket seats, higher cool down seats, comfortable bench seats and body form loungers give everyone a seat that makes them most comfortable. Plush pillows gently support your head and neck while our wide lumbar support seats cradle your body.

We top it all off with a conveniently-placed ice bucket for just the right occasion.

STATE OF THE ART DESIGN

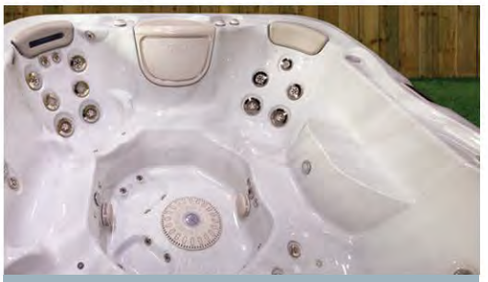

Hydropool is one of the largest hot tub manufacturers in the world. We are committed to raising the standards of our industry by building superior hot tubs. We utilize the latest technologies with the most current environmental practices. Our research and development team is always striving to be the leading edge of innovation and design.

Our state-of-the-art equipment includes the patented Self-Cleaning™/† System, HydroWise System, and Automated Wellness Programs with Zone Therapy.

All equipment is built into our self-supporting cradle and truss design that comes with a 10-year worry-free structural guarantee.

Every Hydropool Hot Tub comes with optimized hydraulics and safety steps inside the hot tub.

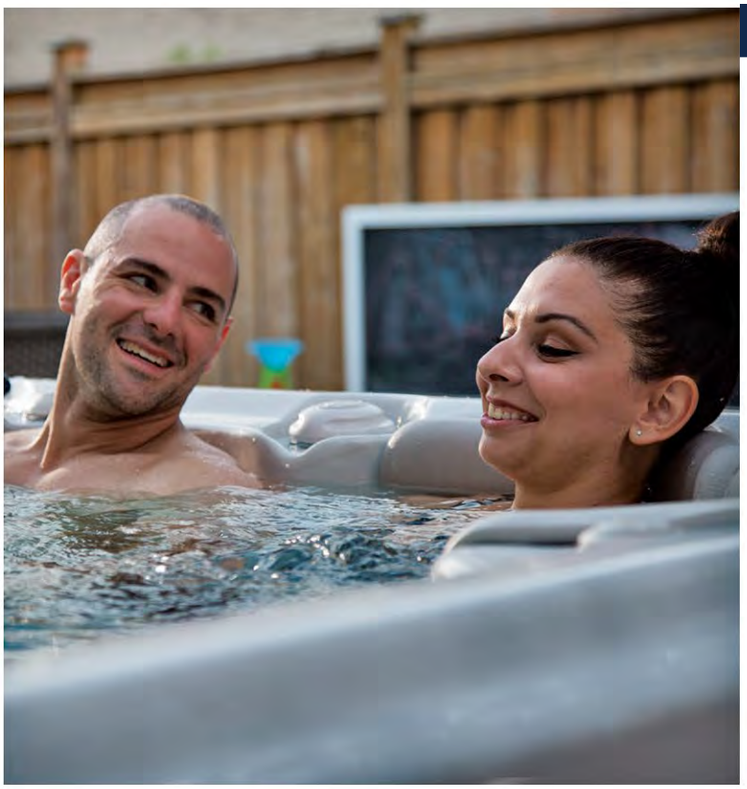

ZONE THERAPY SYSTEM

HYDROPOOL EXCLUSIVE FEATURE

LET'S TALK ABOUT WELLNESS

Much like an iceberg, there's a lot going on below the surface of a Hydropool Hot Tub. With a wide variety of scientific contributions to develop our programs, our Zone Therapy has been designed to provide you with a personalized usage map of your hot tub to help you benefit from a general sense of well-being.

Everyone is different and responds in different ways to hydrotherapy. We've created an easy-to-understand summary of the four key elements that make up each zone so you can get the most out of your time in your hot tub.

KEY ELEMENTS

There are four elements that make up each zone.

1. SEATING DESIGNED AROUND YOU

BUILT TO WORK WITH YOUR BODY'S NATURAL STRUCTURE

- Provides maximum comfort and functionality.

CRADLES YOUR BONE STRUCTURE SO THAT THE MUSCULAR SYSTEM DOESN'T HAVE TO

- Removes stress from your muscles and joints and lets your body relax.

2. TYPE OF JETS

NO STING JETS

- Designed to produce a high flow low pressure massage.

DESIGNED BY MASSAGE EXPERTS

- Whether it is Percussion, Muscle Release or Deep Tissue Jets all jets have been designed for a specific purpose.

3. PERSONALIZED MASSAGE

JET FLEX

- Change same size jets to suit to tailor your massage.

AIR / WATER MIXTURE

- Control the perfect mixture of water and air in the zone.

MASSAGE SELECTOR

- Customize the intensity of massage in each zone with the massage selector

4. DURATION AND SEQUENCE OF ZONES

DURATION

- Time that you spend in each seat of the hot tub can optimize your treatment.

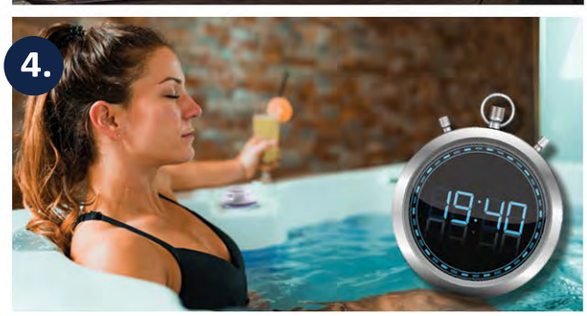

SEQUENCE

- Sequence of seats is critical to the performance of the Zone Therapy.

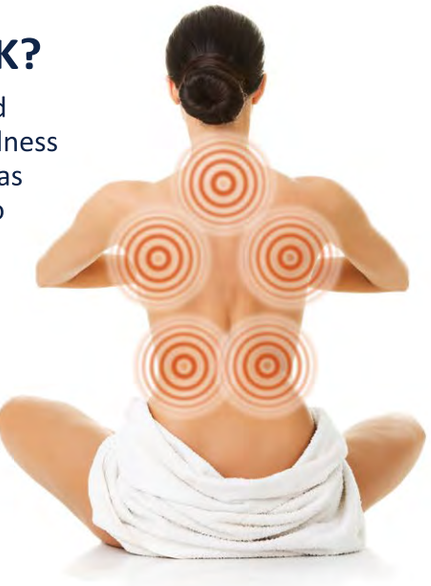

HOW DOES ZONE THERAPY WORK?

Through our solid understanding of Zone Therapy and ergonomics of the human body, Hydropool has taken wellness to the next level. This constantly evolving innovation has created a line of hot tubs that allows Zone Therapy to interact with the human body in the most natural and effective way possible.

ZONE 1
CORE ZONE

Activation of the muscles that support the back.

- Designed to relieve spine fatigue which causes headaches.

ZONE 3
UPPER BODY ZONE

Activation of upper back, neck and shoulder muscles

- Eliminates tension in the shoulder and neck muscles.

ZONE 2
OVERALL BODY ZONE

Activation of leg and lumbar muscles

- Promote improved circulation in lower parts of the body which allows for increased blood flow and lightens legs.

ZONE 4
REFLEXOLOGY ZONE

Activation of foot arch muscles

- Designed to deeply massage the small venous areas in your foot arch.

OUR CUSTOMIZED WELLNESS PROGRAMS

One of the most powerful benefits of revolving your life around water is hydrotherapy. Hydropool has been innovating in this area for over 40 years and has developed customized wellness programs designed to help our customers with whatever ails them. Our easy-to-use topside controls allow you to achieve desired results, all at the touch of a button.

1. LEG PAIN TREATMENT PROGRAM

25 Minute Program that uses Zones 1, 2, 4

- Targeting core leg muscles to massage tightness and soothe joints.
- We recommend adding optional Air Therapy and our DreamScent Aromatherapy with scents like Bergamot & Lemongrass or Tangerine & Grapefruit.

2. DIET BOOST TREATMENT PROGRAM

30 Minute Program that uses Zones 1,2,3

- Compliment with a healthy eating plan.
- We recommend our DreamScent Aromatherapy with scents like Tangerine & Grapefruit.

3. HEADACHE TREATMENT PROGRAM

20 Minute Program uses Zones 1,2,3

- Targets neck and shoulder muscle that play a critical role in easing head pain.
- We recommend adding optional Air Therapy and our DreamScent Aromatherapy with scents like Ylang Ylang or Tangerine.

4. STRESS TREATMENT PROGRAM

Our 25 Minute Program uses Zones 2 and 3.

- We recommend adding our DreamScent Aromatherapy with scents like Bergamot & Lemongrass or Ylang Ylang.

5. BACK PAIN TREATMENT PROGRAM

25 Minute Program that uses Zones 1, 2, 3

- Targets both upper and lower back muscles to massage away tightness.
- We recommend adding our DreamScent Aromatherapy with scents like Ginger or Spearmint & Eucalyptus.

6. SPORTS RECOVERY TREATMENT PROGRAM

35 Minute Program uses Zones 1,2,4 to help you get back on your feet.

- Quick recovery from your training has been proven to increase performance.
- We recommend adding optional Air Therapy and our DreamScent Aromatherapy with scents like Spearmint & Eucalyptus or Ginger.

7. INSOMNIA TREATMENT PROGRAM

20 Minute Program uses Zones 2,3,1 that relax and soothe muscles and mind.

- A good sleep is critical to a healthy and productive life.
- We recommend adding our DreamScent Aromatherapy with scents like Chamomile or Bergamot & Lemongrass.

8. FULL BODY AWAKENING TREATMENT PROGRAM

10 Minute Program that uses Zones 1 and 2.

- Awaken all your senses.
- We recommend adding optional Air Therapy and our DreamScent Aromatherapy with scents like Ginger or Ylang Ylang.

HYDROPOOL EXCLUSIVE FEATURE

SIGNATURE *SELF✧CLEANING*™† TECHNOLOGY

We know that one of the biggest challenges for our customers is the time they need to set aside for maintenance. Now, with our patented *SELF✧CLEANING*™† technology, Hydropool hot tubs clean† more so you clean less.

The *SELF✧CLEANING*™† System cleans 100% of the water in only 10 minutes. That's an incredible twelve times in two hours! This is not your run of the mill hot tub vacuum.

It's an intricate and innovative cleaning† system using multiple technologies to clean† the water.

Hydropool has developed the Quick Drain System that uses the No Sump Pump system. It simply pumps the hot tub water out to any distance or grade, saving you tons of time, and eliminates the hassle associated with hot tub maintenance.

1. HYDROCLEAN† FILTRATION JETS
OPTIMIZED SURFACE FILTRATION

- Strategically placed jets create a continuous flow of water around the hot tub.
- Pushes all floating debris towards the High Flow Skimmer.

HIGH FLOW SKIMMER
Removes floating debris, extending the life of the filter.

2. FAST FLOW FILTER
CLEANER† WATER FASTER

- Removes Oils, Soaps & Lotions.
- Protects the pumps & heater.

3. HYDROCLEAN† FLOOR VACUUM
KEEPS THE FLOOR CLEAN†

- Built in Floor Vacuum - No need to Vacuum the hot tub.
- Circulates watercare products more effectively.
- Part of our Quick Drain System.

4. PUREWATER SYSTEM
ALL NATURAL SYSTEM

- Designed to keep your Hydropool Hot Tub water clean† and clear the way nature intended.
- Preventative system designed to prevent problems from happening.

5. PRESSURIZED MICRO-FILTRATION
CLEANS† 100% OF THE WATER EVERY 10 MINUTES

- Designed to polish the water filtering the smallest of particles.
- Microban protection helps to prevent the growth of bacteria in the filter area.
- Easy to access, easy to clean.

6. WATERCARE SYSTEM
WORRY-FREE & CONVENIENT

- Strategically placed where the dirt and debris accumulate.
- Easy to use and out of sight.

HYDROPOOL EXCLUSIVE FEATURE

MADE IN CANADA FOR CANADIAN WINTERS

At Hydropool, our world is our water. We not only engineer our hot tubs to care for water, clean[†] it and preserve it for generations to come but our commitment to a healthy planet extends beyond water.

One of the most frequent questions we're asked is about the cost of keeping your hot tub at those ideal temperatures (around 100° F/37° C).

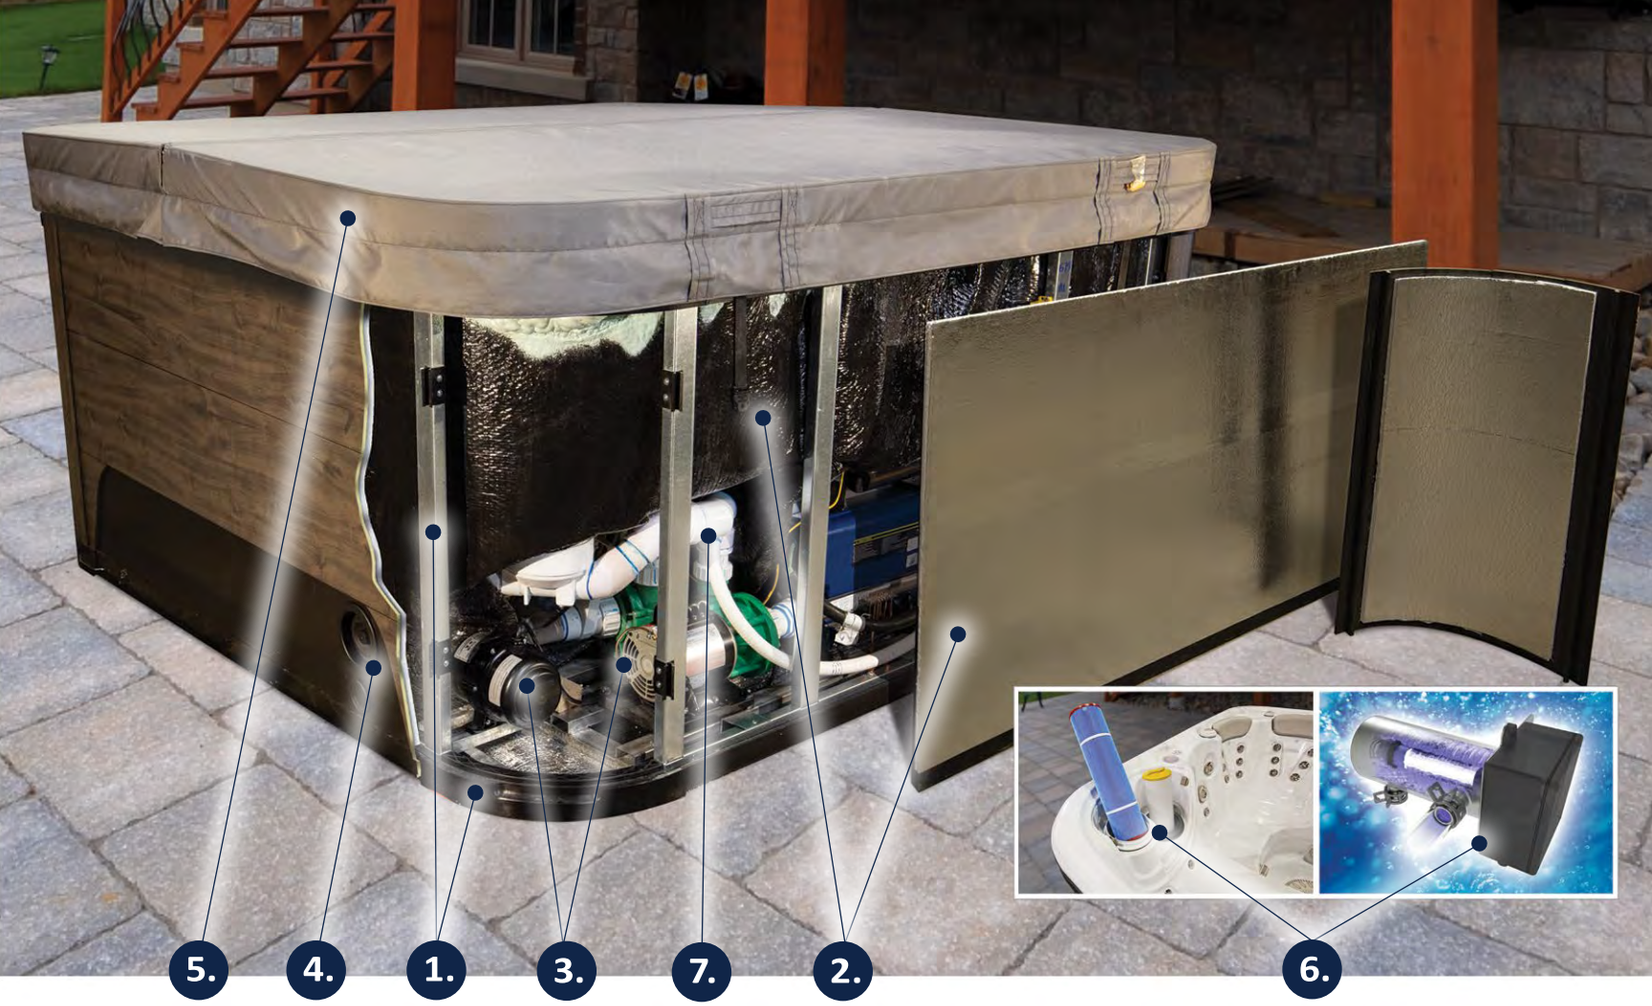

Thanks to our innovative HydroWise Energy Efficient Insulation and our superior 4 inch Everlast Thermal Cover, we've mastered the art of keeping the heat in and the cold out. Combine this with the fact that our hot tubs are engineered to be the most energy efficient in the world. Meaning, you can enjoy your hot tub for just pennies a day.

We have always been developing new ways to better our energy efficiency...

1980 Engineered the first Self-Cleaning System to better energy efficiency.

1981 Spray Foam insulation on shell to improve energy efficiency.

1. EVERLAST STEEL FRAME & PRO POLYMER BASE
STRONGEST FRAME IN THE INDUSTRY

- Galvanized steel frame – No Rust – No Rot
- Fully sealed base to lock the heat in keep the cold out.

2. HYDROWISE TRIPLE THERMAL SHIELD
SAVING YOU MONEY

- NASA Technology - Reflects the residual heat of the pumps, shell and plumbing back into the hot tub.
- Heater does not need to turn on as often, saving you money.
- Ranked as one of the most energy efficient hot tubs in the world by the state of California. Please Consult our HydroWise Energy Guide.

3. HYBRID HEATING
AMBIENT HEAT

- Each pump creates 1.5 kw of waste free heat.
- Heater doesn't have to turn on as often to heat your hot tub.

4. ECOHEAT EXCHANGE TECHNOLOGY
GREAT FOR ANY SEASON

- Help control the temperature of the hot tub without the heater ever coming on.
- The fully adjustable HydroWise Thermal Vents maximize energy efficiency for any season and any climate.

5. EVERLAST THERMAL COVER
MADE FOR CANADIAN WINTERS

- Heavy duty tapered locking safety hard cover
- Most energy efficient hardcover in the industry.
- Locks on both sides to keep animals out and children safe.

6. *SELF✩CLEANING*™† TECHNOLOGY
DESIGNED TO EXTEND YOUR WATER LIFE

- **COMMERCIAL GRADE FILTRATION** cleans† 100 percent of the water in only ten minutes.
- **PUREWATER SYSTEM** Designed to keep your Hydropool Hot Tub water clean† and clear the way nature intended.
- Cleaner Water Faster.

7. HEAT PUMP BYPASS TECHNOLOGY OPTION
ECO FRIENDLY HEATING OPTION

- Energy Efficient.
- **Dual Functionality**
  Heat in the Winter / Cool in the Summer
- Save money

1992 First use of Full Foam Insulation.
1996 Changed to perimeter foam.
2000 Perimeter foam to HydroWise Double Thermal Sheild System.
2005 Introduction of Eco heat Exchange technology.
2008 Launch of Evergreen Carbon Neutral Program.
2010 Introduction of Evergreen Pump & black pipe technology.
2013 Addition of Low Voltage Self-Clean Filtration pump.
2017 New Low Amperage pump.
2018 New Dual Thermal Shield Blanket
2024 Addition of the Hydrowise Thermal Shield Cabinets and Everlast Steel Frames

NOTHING IS
SOFTER OR
STRONGER
THAN WATER
THAT IS OUR

On average you will use up to **27% less energy** when compared to other leading brands*

HERE'S HOW HYDROPOOL SERENITY HOT TUBS COMPARE

On average you will use up to **17% less energy** when compared to other leading brands*

* Energy calculations based on data compiled by the state of California and US Energy Information Administration.

OUR ULTRA QUIET OPERATION

Hydropool Hot Tubs are renowned for their ultra quiet operation, and this is due to their insulative properties. This insulation not only helps make them energy efficient, but it also traps and deadens sound energy which prevents any disruptive noise from reaching your oasis of relaxation.

Keep in mind these levels to understand just how loud these hot tubs are in comparison.

Loud Rock Concert	115dB
City Traffic (inside car)	85dB
Telephone dial tone	80dB
Normal conversation	60-65dB

OPTIONS & UPGRADES

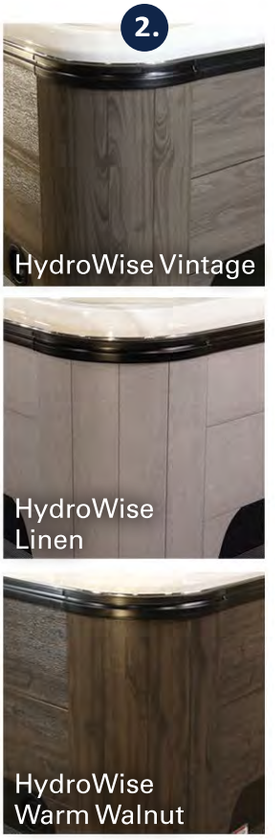

1. SHELL OPTIONS
STANDARD ACRYLIC COLORS†

Your Hydropool Signature Hot Tub is available in these seven colors.

2. CABINET OPTION
HYDROWISE CABINETRY WITH REMOVABLE PANELS

Your Signature Hot Tub comes in our maintenance-free HydroWise Cabinet finish. This premium quality cabinetry is installed onto a sturdy cradle substructure for the ultimate in durability and is embossed for the most realistic look possible. In the unlikely event that you require access to the plumbing or equipment, all four panels are removable for easy service access.

3. COVER OPTION
EVERLAST HOT TUB COVERS

Protect and insulate your hot tub with this poly wolven laminated vinyl cover able to withstand harsh winter months and is UV and mildew resistant. Designed to increase the longevity of your hot tub and retain the water temperature. Our covers include an extra thick full-length steam seal inside the fold to trap any excess heat preventing heat loss.

OTHER POPULAR OPTIONS

4. iCOMMAND SYSTEM WORLD EDITION

The Smart Phone App is designed as a wireless hot tub control that allows you to pick the water care settings that fits your schedule, adjust filtration and temperature settings and create the ideal hot tub experience from anywhere in the world.

5. EZ ULTRA PURE OZONE SYSTEM

The system is designed for ozone to be added to keep the water clean†.

6. INDUSTRY-LEADING GUARANTEE

Hydropool Hot Tubs are built to stand the test of time and offer an industry leading guarantee package. For details inquire with your local Hydropool Retailer.

*Hot tub shell and cabinet colors may not be exactly as shown due to printing.

LIGHTING OPTION

7. DELUXE LED & RADIANT LIGHTING

Enjoy the added convenience and reliability of the three extra interior lights and Radiant Trim Lighting which will illuminate your hot tub experience and accent your backyard. These lights are bright LED lights that sequence through blue, green & red colorations or can stay on your favorite of the three.

COVER OPTIONS

COVER LIFTER OPTIONS

All of our cover lifters are made in North America. Constructed of corrosion resistant aluminum brackets, each one has galvanized arms with comfort foam grips. All of our cover lifters are covered by a Limited Lifetime Manufacturer's Warranty.

8. STANDARD COVER REMOVER

Designed to work as a high or mid-mount these can be mounted to the side of the hot tub or deck mounted if the hot tub is set into the deck surround. For ease of installation this cover lifter is designed with patented sliding brackets.

9. UNDERMOUNT COVER REMOVER

Designed to work as a deck or surface mount, and can be installed using the weight of the hot tub to hold it in place. No screws, and no drilling into your hot tub cabinet is required. This cover lifter also is designed with patented sliding brackets.

10. HYDRAULIC COVER REMOVER PLUS

Lifts your hot tub cover with greater ease thanks to 80lb dual gas shocks and is designed to mount into your hot tubs cabinet. This cover lifter can also be used on hot tubs that are in-ground installations.

11. TWO TIER UNIVERSAL STEP

This option, a two tier step makes entering and exiting your hot tub safe and easy. These steps are available in matching Midnight, Driftwood or Espresso color finishes.

12. HEAT PUMP OPTION

This option will reduce the energy costs to run your hot tub dramatically.

AVAILABLE OPTION PACKAGES

IT IS TIME
YOU FOUND
SERENITY

HYDROPOOL EXCLUSIVE FEATURE

SERENITY HOT TUBS ARE BUILT TO LAST FROM THE GROUND UP

Hydropool introduces an all new redesigned cabinet and frame. The new Everlast Frame cradles the all Edgewater Shell and it all sits on a Polymer Insulated Floor sealing in the acrylic shell, cabinet and frame.

This creates a completely sealed system that keeps the heat in and the cold out in the winter. In the summer, heat can be released and regulated by the EcoHeat Exchange fully adjustable venting.

1. POLYMER INSULATED FLOOR
THE BASE OF THE WEATHERSEAL INSULATION SYSTEM

- Fully sealed base to lock the heat in keep the cold out.

2. UNIBODY FRAME
THE STRONGEST FRAME IN THE INDUSTRY

- Specifically engineered to hold the weight of the water. while
- Adjusts to the heating and cooling that comes with summers and winters.

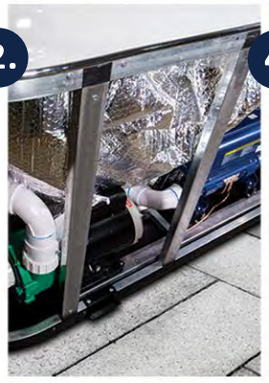

3. EDGEWATER SHELL
BUILT TO BE COMPLETELY WATERPROOF

- The polyester and vinylester resin are combined with fiberglass to add strength.
- Creating the strongest shell in the industry.

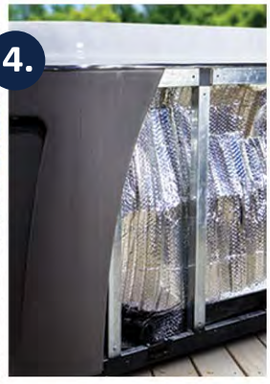

1.

2.

4.

3.

5.

6.

4. HYDROWISE THERMAL BLANKETS
NASA INSPIRED TECHNOLOGY

- Reflects the residual heat of the pumps, shell and plumbing back into the hot tub.
- Heater does not need to turn on as often, saving you money.
- Ranked as one of the most energy efficient hot tubs in the world by the state of California.
  Please Consult our Hydrowise Energy Guide.

5. WEATHERSEAL CABINET
REFLECTS RADIANT HEAT

- Locks in the waste heat given off by pumps and heater by reflecting radiant heat inside cabinetry of the hot tub.
- The cabinet panels can be easily removed for access on all sides of the hot tub.

ECOHEAT EXCHANGE TECHNOLOGY

- Help control the temperature of the hot tub without the heater ever coming on.
- The fully adjustable HydroWise Thermal Vents maximize energy efficiency for any season and any climate.

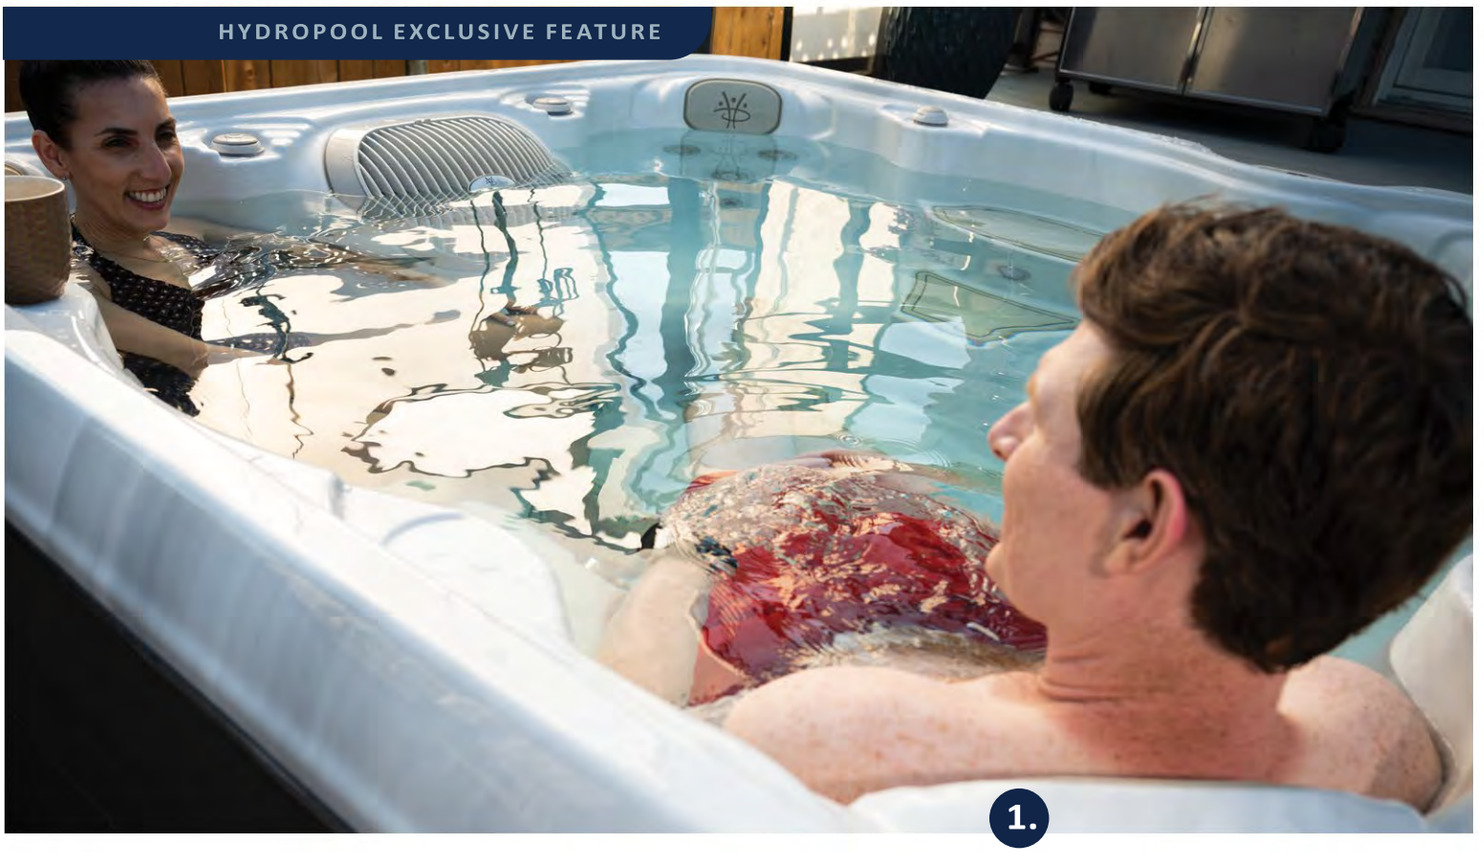

6. HYBRID HEAT ADVANTAGE
SAVING YOU MONEY

The combination of insulation materials allows our WeatherSeal Insulation System to capture the radiant heat from the plumbing and equipment, significantly reducing energy consumption.

HYDROWISE VINYL COVER

- Heavy duty tapered locking safety hard cover.
- Most energy efficient hardcover in the industry.
- Locks on both sides to keep animals out and children safe. Can be easily removed for access on all sides of the hot tub.

HYDROPOOL EXCLUSIVE FEATURE

1.

THE SERENITY HOT TUB CLEARSPRING FILTRATION SYSTEM

This system for Serenity Hot Tubs is a three-stage filtration that keeps water cleaner† and clearer. The first stage is the Ultra Flow Grill with its Catch Barrier. This prevents debris from re-entering the hot tub. The second stage Skimmer Net traps large debris before reaching the filter cartridge. The new ClearSpring Filtration System, with its much larger surface area, filters more water than ever before. It's made out of micro-fiber and contains a dense inner core that traps the smallest particles and holds them. Clean and healthy spa water is the foundation of all Serenity Hot Tubs. You can enjoy the cleanest water with the easiest system to operate and maintain your Serenity Hot Tub's performance.

1. ULTRA FLOW GRILL

Allows maximum flow of water, quickly removing debris from the hot tub water. The Catch Barrier prevents debris from re-entering the hot tub.

2. ULTRA FLOW SKIMMER NET

The skimmer net eliminates the need to skim the surface and is the first line of defence. Catches any and all debris too large for filter to catch.

3. DUAL FILTRATION

This dual design maximizes the surface area and captures debris more efficiently. It can be easily accessed, yet hidden from eye sight and has a built-in water care dispenser.

4. EVERGREEN PUMP

Filters 87 US Gallons of spa water per minute and has an energy efficient design.

2.

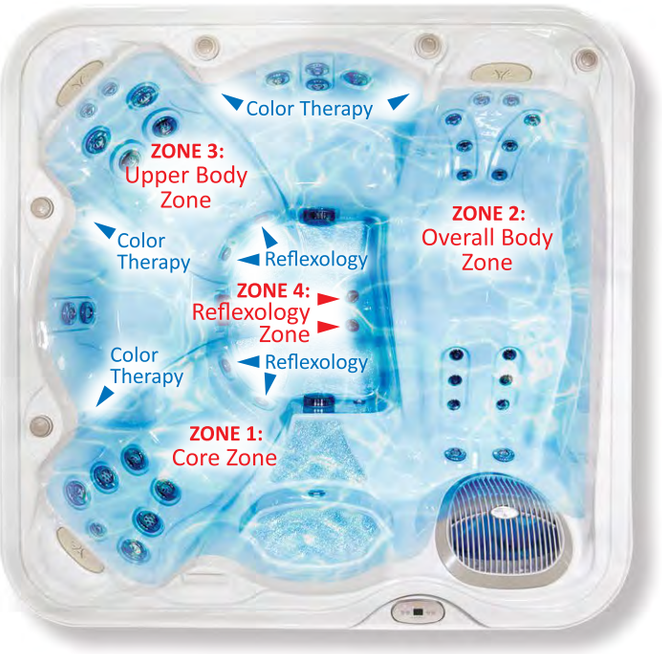

3.

4.

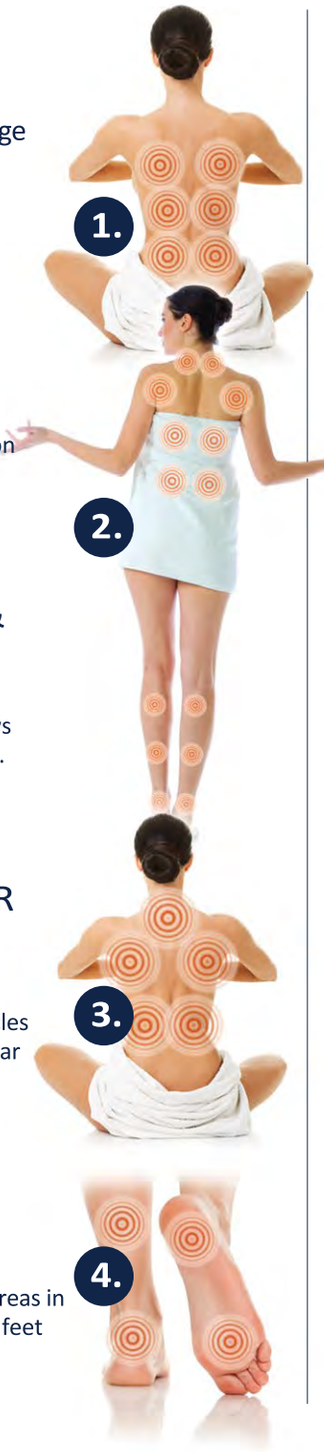

SCIENCE OF IMMERSION IN A SERENITY HOT TUB

Through our understanding of Zone Hydrotherapy and ergonomics of the human body, Hydropool has taken the Science of Immersion to the next level. We have constantly innovated to create a line of hot tub that uses Zone Therapy as its method to interact with the human body in the most natural and effective way possible. Hydropool Zone Therapy is designed around you and your usage of the hot tub to help you benefit from a general sense of well-being. We are all unique individuals genetically and have varying lifestyles that all play a role in defining our sensitivity to a release of various tensions.

ZONE THERAPY:

Each zone is designed to massage a specific part of your body:

ZONE 1: CORE ZONE
ACTIVATION OF THE PARAVERTEBRAL MUSCLES

Vertebral fatigue contributes to headaches. This zone releases tension in the Dorsal Muscles.

ZONE 2: OVERALL ZONE
ACTIVATION OF LEG & LUMBAR MUSCLES

Promotes improved circulation in the lower part of the body and allows for venous return and lightened legs.

ZONE 3: UPPER BACK ZONE
ACTIVATION OF UPPER BACK, NECK AND SHOULDER MUSCLES

Eliminates tension in trapezoid muscles and neck by releasing tensions in Solar Plexus area.

ZONE 4: REFLEXOLOGY
ACTIVATION OF FOOT ARCH MUSCLES

Deeply massages the small venous areas in your foot arch offering relief as your feet take the brunt of most sports.

EACH ZONE HAS FOUR FEATURES, DESIGNED TO MAXIMIZE YOUR HYDROTHERAPY:

1. TYPE OF JETS

The type of jet is crucial to a proper massage. Our jets are designed purposely for a deep tissue massage

2. JET PLACEMENT

Our hydrotherapy jets are specifically designed for each zone so that the superior benefits of hydrotherapy are achieved. Our different jet patterns are designed to work different muscle groups.

3. SEATING DESIGNED AROUND YOU

Designed to work with your body's natural structure and functions to provide maximum comfort and functionality. Our ergonomic seats support the skeletal structure so that the muscular system does not have to; it removes stress from muscles and joints and allows the body to relax.

4. DURATION IN SEAT

The last component of Zone Therapy is the duration of time that a person spends in each seat (Zone) of the hot tub. The duration in seat combined with the sequence of seats is critical to the performance of the Zone Therapy.

SERENITY HOT TUB COLLECTION

If you want elegant styling and exceptional performance, check out the Serenity Collection. You'll learn what makes these spas special, including unique massages, spacious interiors and a range of models that fit from four to seven adults. Plus, you can count on legendary Hydropool quality, WeatherSeal Insulation, and innovative water care options, like the PureWater System that helps you spend less time caring for your spa, and more time enjoying it.

OUR HISTORY WITH WATER

Over 40 years ago, a father and son had a vision that the power of water could play an instrumental role in a family's everyday life. With their extensive background and knowledge in the swimming pool industry, they decided to expand their business to include both hot tubs and swim spas.

They started as retailers with a company called California Spa, Sauna and Fitness in 1978. This was the very first retailer of hot tubs in Eastern Canada. It was there that Dale and Fred developed their love for the retail side of the business.
Quickly realizing the potential for hot tubs, Hydropool was formed in 1980. It quickly became one of the largest manufacturers of hot tubs in North America.

In 1995, Hydropool saw the potential of swim spas, and started to manufacture its first product, the AquaTrainer. Hydropool's growth worldwide has now reached over 400 independent retailers in 60 countries. Hydropool recently added a new 66,000 sq. ft. swim spa manufacturing facility and a new 101,000 sq. ft. parts distribution warehouse. This allows Hydropool to continue to expand to successfully meet all of our consumers' needs. Each of our retailers are professionally trained to assist in selecting your ideal hot tub or swim spa to match your budget and lifestyle needs.

Hydropool Hot Tubs and Swim Spas are manufactured in Mississauga, Ontario Canada, by experienced designers and engineers. We're always striving to exceed our customer's expectations.

†Clean is defined as the removal of microscopic (down to 3 µm level, varies by model) debris from the water. Ozone aids in the grouping of small debris. Once combined, the debris can be more easily caught by the filtration process.
